Subject: FW: Final Copy-SFIREG OPP Updates June 2019.docx- concerns- SLITS
Attachments: RE: dicamba meeting with states - tomorrow - 3 PM; RE: Final Copy-SFIREG OPP Updates June 2019.docx- concerns

Jackie,

We have told the states repeatedly that SLITS had to move from Lotus Notes and this was the cause of any lapses in responses. The security issue is new and I would not share that in a public forum. I heard from Liza that two states had just received SLITS responses from 2016 and 2017 this week!

I don't know how senior management envisions responding to this request.

Yvette

Hi Yvette

Just sent you a note. Also see the attached. I told them that I'm trying to get a message out to the states, if the program works by the end of the week. I will check with the programmer again. I will put any message out that Rick feels comfortable with me putting out.

I believe we developed a desk statement on the 12 neonic product voluntary cancellations when we issued the proposed settlement agreement for public comment. If we deviate from that desk statement, we will need to vet the language

with IGC and then with the OCSPP-IO before we provide the update at the SFIREG meeting.

I'd like to see what we would say about SLITS before giving the okay.

Hi Rick/Ed/Wynne, Liza has also asked for an update on the voluntary cancellation of certain neonics and the status of SLITS for next week's SFIREG meeting. Are you okay with FEAD providing an update on these – we coordinate with the Divisions and would include a write-up in the OPP Update document for SFIREG that you reviewed earlier. See Liza's request below. Thanks, Jackie

I have received a request from Regional Representatives to have the recent voluntary cancellation of certain neonics to be included in the OPP Update during the meeting <https://www.federalregister.gov/documents/2019/05/20/2019-10447/product-cancellation-order-for-certain-pesticide-registrations>. In addition, the recent personal changes, specifically in FEAD, and in the midst of states developing revised certification and training plans., has raised questions regarding appropriate contacts. I would request this be included in comments as well. And finally, there has been a request that the status of SLITS be provided. We have had more than one member who received responses recently to questions submitted over a year or more ago.

Liza,

Given the need for AA-level vetting of materials, I cannot commit to addressing these topics in a public forum. I will be sure to have available updates ready to share in an appropriate setting.
